ESREL 2024: Peer Review Process

The Members of ESREL 2024 Conference Scientific Committee

The Reviewers

Dear Colleagues,

I am pleased to inform you that the ESREL 2024 Website <https://esrel2024.com> is completely ready to handle submissions and conduct the review process.

Details concerned with the forms of contributions (templates and samples/examples) can be found at the ESREL 2024 Website <https://esrel2024.com> . To send contributions, the button „Submission” should be used after careful reading the text under the button "Instructions For Contribution Submission".

Now, it is the time to prepare contributions for our conference and promote it effectively, using First Announcement (attached) and the Website, which I kindly ask you to do.

The first proposals for ESREL 2024 have just started to come in.

In order to carry out the review process efficiently, the ESREL 2024 Reviewer Report Form (attached) was prepared. And, we are ready to start the peer review process just now. In this context, I have a request regarding the review process addressed to the reviewers to try to do the review within 2 weeks after receiving the manuscript for review.

With Best Regards,

Krzysztof

Prof. Krzysztof Kołowrocki

ESREL 2024 Conference Chairman
